Acceptable Use Policy (AUP) for District Computer Systems  
Information for all Staff and Students

---

**The District's Acceptable Use Policy ("AUP")** is to prevent unauthorized access and other unlawful activities by users online, prevent unauthorized disclosure of or access to sensitive information, and to comply with the Children's Internet Protection Act ("CIPA"). As used in this policy, "user" includes anyone using the computers, Internet, email, chat rooms and other forms of direct electronic communications or equipment provided by the District (the "network"). Only current students or employees are authorized to use the network.

**The District will use technology** protection measures to block or filter, to the extent practicable, access of visual depictions that are *obscene, pornographic, and harmful to minors* over the network. The District reserves the right to monitor users' online activities and to access, review, copy, and store or delete any electronic communication or files and disclose them to others as it deems necessary. Users should have no expectation of privacy regarding their use of District property, network and/or Internet access or files, including email.

### Acceptable Uses of the District Computer Network or the Internet

**Each year the District must** verify that a student has signed the acknowledgment page of this policy in order for the student to use the computer network and to have Internet Access. Each school site must keep this page on file. A student who is under 18 must have a parent or guardian sign this page and schools must keep it on file. Once signed the permission/acknowledgement page remains in effect until revoked by the parent, or the student loses the privilege of using the District's network due to violation of this policy or is no longer a CUSD student. Employees and other users are required to follow this policy. Even without signature, all users must follow this policy and report any misuse of the network or Internet to a teacher, supervisor or other appropriate District personnel. Access is provided primarily for education and District business. Staff may use the Internet, for incidental personal use during duty-free time. By using the network, users have agreed to this policy. If a user is uncertain about whether a particular use is acceptable or appropriate, the user should consult a teacher, supervisor or other appropriate District personnel.

**In addition**, each year a student must pass a basic Netiquette class verified by the school site at which the student attends. Netiquette, or network etiquette, is the contemporary term for the proper way to communicate and interact with each other using email over the Internet. Netiquette training will include but is not limited to:

- Becoming familiar with CUSD's AUP
- Common courtesies in written communication
- Asking permission to forward attachments or emails
