

## Academic Standards

### Instruction

The Governing Board shall adopt high standards for student achievement which challenge all students to reach their full potential and specify what students are expected to know and to be able to do at each grade level and in each area of study. These standards shall reflect the knowledge and skills needed for students to be adequately prepared for postsecondary education, employment, and responsible citizenship.

The Superintendent or designee shall provide the Board with recommended standards using a process that involves teachers, school site and district administrators, students, parents/guardians, representatives from business/industry and postsecondary institutions, and/or community members. He/she shall ensure the proper articulation of standards between grade levels and the alignment of the standards with the district's vision and goals, graduation requirements, college entrance requirements, and other desired student outcomes. He/she also shall ensure that the standards are easily understandable and measurable.
