\$15 per person after April 1st

(Covers cost of training materials and snacks - Bring your own sack lunch)

The CSYSG Workshop is for teams working to create or enhance a school garden program. This workshop covers planning and designing a school garden, basic gardening skills, curricular connections, and outdoor classroom management. It is also a great chance to network and share ideas.

Advanced registration is required. Space is limited. School garden teams (teachers, parents, volunteers, school administrators, Master Gardeners and others) are encouraged to attend. View training agenda, workshop calendar and gather more information at www.csgn.org/csysg. To register please e-mail Autumn or Kevin at gardenstogrowin@gmail.com. Hope to see you in the garden!

The recommended book for this workshop is Gardens for Learning. It can be purchased for \$24.99 or downloaded for free at <http://www.csgn.org/store/gardens-learning>. If you have the chance to look it over before the workshop it will be helpful and is a great long term resource.

Workshop model created by:
Life Lab Garden Classroom, Santa Cruz, CA
UC Davis Children's Garden Program
Resource Conservation District of Greater San Diego County
In collaboration with the California School Garden Network.
*The California School Garden Training Program is funded by
California Department of Food and Agriculture Specialty Crop Block Grant.*
